

## **Al-Aman Panel Factory**

Alaman Switchgear Factory has over 10 years of experience in the engineering and manufacturing of low voltage switchboard assemblies, distribution panels, starter panels and provides total service with technical supports to a wide range of commercial facilities and construction projects including commercial, industrial and residential.

Our production factory can supply all types of electrical switchboards.

We have a wide range of advance machines for our production.

Our Project Engineer can design a Busway system based on your specifications and related drawings.

Designs are completed using software such as Auto Cad and Auto Disk Inverter, with customer review and approval.

Every product goes through rigorous quality checks and testing procedures before it leaves the factory.

**One of our production lines is to use Schneider electric enclosure such as:**

- Universal enclosure
- Prisma enclosure
- Block set enclosure

The wide range of quality checks are both in-progress and prior to shipment.

Standard procedures from point-to point checks of wiring diagrams and continuity checks on wiring. We routinely perform schematic logic, device functionality and wiring tests before shipping.

**Our Products are:**

1. Main Switch Boards [MDB]
2. Sub Distribution Board [SMDB]
3. Automatic Transfer Switch [ATS] Panels Ratings up to 6000A
4. Auto Mains Failure [AMF] Control Panel
5. Generator Control Panels
6. Auto Synchronizing Panels up to 32 Generators

7. Direct On Line [DOL] Panels
8. MCC Control Panels
9. Soft Starting Panels
10. Fuel Pump Control Panels
11. Power Factor Correction Panels
12. PLC Control Panels
13. Load Banks
